

Title: Human-centered AI

Instructor: Fabio Massimo Zanzotto, University of Roma – Tor Vergata

Contents:

- Inductive and Deductive Teaching for AI
- Roles and remuneration in AI system building: programmers and knowledge producers
- Symbolic Knowledge in Neural Networks
- Approaches to Neuro-symbolic AI

Course Material:

- [View of Viewpoint: Human-in-the-loop Artificial Intelligence \(jair.org\)](http://jair.org)
- [Frontiers | Symbolic, Distributed, and Distributional Representations for Natural Language Processing in the Era of Deep Learning: A Survey \(frontiersin.org\)](http://frontiersin.org)
